SUBJECT:

Request for Information Concerning U.S.
Activities in Honduras.

1. We have received the enclosed letter from the White House concerning allegations about possible CIA involvement in the activities of Honduran security forces. Specifically, the letter from Congressmen Studds, Barnes, Garcia, Gejdenson, Weiss and Kostmayer, centers around a New York Times article reporting that "the Central Intelligence Agency aided Honduran security forces that it knew were responsible for having killed a number of people detained for political reasons between 1981 and 1984." Please see the enclosed letter for additional information on these allegations and for additional questions from the Congressmen on this matter.
